

# Ag-L 502

is a natural stimulant that is capable of intensifying the vegetal metabolism and the efficiency of the crops. is a proper phytofortier for all types of crops, especially CITRUS, STRAWBERRIES, FRUIT TREES, OLIVE TREES, ORNAMENTALS and VINE. It is recommended during the phases of greater vegetative activity (transplantation, owering, fruit setting and fruit growth) or under unfavourable conditions (frosts, drought, hail, pests, diseases, etc.).

Contents	(Weight / volume)%
SEAWEED	20%
Potassium (K <sub>2</sub> O)	5%
Nitrogen (N)	5%
Magnesium (MgO)	1%

The crop	Usage rate / 100 Liter Water	Notes / Foliar Spray
Flowers and Ornamentals	100/ml	Before transplanting, before owering
Horticulture	100 - 150 ml	After the transplanting, before owering
Nursery	50 - 80 ml	In case of etiolation
Industrial crops	100 - 150 ml	After transplanting, before owering
Orchards, Vineyards and Citrus	150 - 200 ml	Before owering, at the fruit set and before ripening

## Physical and chemical properties:

- **PH:** 5-5.5%
- **Electrical conductivity:** 0.8-1.2 ms/cm at 20°

## Packaging:

1/2 L

1/4 L

\* The formula can be tailored to suit your crops

## Specification and advantages:

- 🌿 It helps to increase the channels in the main roots and increase the total root hairs.
- 🌿 Improves absorption of other nutrients.
- 🌿 Improves the immune system.
- 🌿 It increases leg strength and size.
