

Ag-P 101

A group of trace elements that are chemically chelated with care and high precision that ensure easy absorption and movement within the plant, providing the plant's needs of all the trace elements necessary for growth and increased production.

Contents	(Weight / weight)%
Iron (Fe)	≈6
Magnesium (MgO)	≈4.5
Copper (Cu)	≈1.5
Manganese (Mn)	≈2
Zinc (Zn)	≈2
Boron (B)	≈0.5
Molybdenum (Mo)	≈0.05

The crop	Usage rate	Notes
Vegetables	1.5-4 kg / 10,000 m ² 40-50 g / 100 liters of water	Several times during the season Foliar spray
Fruit trees	20-50 g / tree per season 40-50 g / 100 liters of water	Several times during the season According to the age of the tree
Green fodder	4-5 kg / 10,000 m ²	Several times during the season
Green feed	1.5-4 kg / 10,000 m ²	

Physical and chemical properties:

- **PH:** %4.4-3.5
- **Electrical conductivity:** 0.8-1.2 ms/cm at 20°

Packaging:

* The formula can be tailored to suit your crops

Specification and advantages:

- Mixed trace elements, chelated by EDTA.
- High purity to correction elements deficiencies.
- Soluble in water.
- High absorption by plants.
