

# Ag-P 108

A group of amino and organic acids that contain more than 17 types of free amino acids that are fast dissolving and easy to move inside the plant, increasing the plant's immunity and resistance to stress and harsh environment conditions.

Contents	(Weight / weight)%
Organic acids:	≈40
Organic nitrogen:	≈7
Plus rare items (Fe, Zn, Mn, MgO)	

The crop	Usage rate	Notes
Vegetables	6-8 kg/ 10000 m <sup>2</sup>	A week after germination
Fruit trees	2-9 kg/ 10000 m <sup>2</sup>	Every 15 days / season
Field crops and forages	4-8 kg/ 10000 m <sup>2</sup>	
In the event of foliar spraying on plants	0.25-0.5 kg/ 200 liters of water	

## Physical and chemical properties:

- **PH: 2.5-3%**
- **Electrical conductivity: 0.8-1.2 ms/cm at 20°**

## Packaging:

\* The formula can be tailored to suit your crops

## Specification and advantages:

- ✦ Natural organic compound.
- ✦ High solubility and easy movement inside plants.
- ✦ Increases the plant's immune system, which increases its resistance to pests and diseases.
- ✦ Increases plant resistance to climatic fluctuations.
- ✦ Safe after harvest.
- ✦ It can be mixed with most pesticides and fertilizers to improve its effectiveness.
